CAREER OBJECTIVE

Highly motivated engineering graduate with strong fundamentals in programming, data analysis, and software development. Seeking an entry-level role where I can apply my technical skills, continuously learn, and contribute to organizational growth while building a strong professional foundation.

INTERNSHIP

Data Engineering Virtual Internship

04/2024 – 06/2024 Online

- Built statistical models for risk assessment using Python and SQL
- Debugged data processing issues and optimized SQL queries to improve performance and accuracy
- Executed test scripts for data validation, ensuring accuracy and integrity
- Assisted in designing data pipelines to improve processing efficiency

PROJECTS

Power BI Project: US Chronic Disease Dashboard

[GitHub Repository](#)

- Built an interactive Power BI dashboard analyzing U.S. chronic disease data (2015–2022) with KPI cards, bar graphs, and pie charts.
- Performed data cleaning, transformation, and DAX calculations to compute high/low confidence limits and demographic-level patterns.
- Identified key insights across age, race, gender, and grade segments to support data-driven public health decisions.
- Improved data visibility by creating intuitive visualizations and delivering a structured analytical story.

Online Quiz Web Application

[GitHub Repository](#) | [Live Demo](#)

- An online quiz web application that enhances user experience through interactivity
- Built an interactive quiz application with real-time scoring; implemented form validation and handled edge cases to prevent runtime errors.
- Designed responsive UI, dynamic question rendering, and automated results
- Debugged UI and logic issues to ensure smooth user experience
- Deployed the application on GitHub Pages demonstrating end-to-end frontend development

CERTIFICATES

- Python - GeeksforGeeks
- Basics of Python - Infosys Springboard
- CSS Basic Certification - HackerRank
- SQL Basic Certification - HackerRank
- Data Engineering Virtual Internship - AWS Academy

SKILLS

- Programming: Python
- Web Development: HTML, CSS, JavaScript
- Database: SQL
- Tools: Git, GitHub, Power BI [Beginner], Figma [Beginner]

EDUCATION

B.Tech in Electrical & Electronics Engineering

Narasaraopeta Engineering College, JNTUK

Oct 2022 – May 2025

CGPA: 8.16

Diploma in Electrical & Electronics Engineering

Kakinada Institute of Technology & Science, SBTET

Aug 2019 – May 2022

Percentage: 88.58

S.S.C

Z P High School, BSEAP

Jun 2018 – May 2019

GPA: 9.8
